

## WEC-Apéro

Tuesday, 7 May 2019, from 17:00 to 19:00  
at Maagplatz 1, Zurich

Dear Members and special guests

Discussions around different generation technologies or mobility forms often neglect their entire ecologic footprint – beginning from sourcing of materials until their disposal. The World Energy Council in Switzerland will focus in its next Apéro event on a «cradle-to-grave» footprint of different power generation technologies and mobility forms.

The following speakers are confirmed for the event:

- **Prof. Dr. Armin Reller**, Chair of Resource Strategy at University of Augsburg, Germany: «Ecologic footprint of different power generation technologies»
- **Aurélien Schuller**, Manager at Carbone 4 in Paris, France: «Carbon footprint of different mobility forms»

We would be delighted to welcome you at this event. **Please register** via e-mail! *[free of charge]*

Yours sincerely

Benjamin Teufel

**Programme**

16:45 | Registration  
17:00 | Welcome  
17:05 | Input from Germany  
17:45 | Discussion  
18:00 | Input from France  
18:45 | Discussion  
19:00 | Apéro

**Location**

Ernst & Young AG  
Maagplatz 1  
8005 Zurich  
Switzerland
